

 RAL 3013

## Sitting cat

**Design:** Lissy Boesen  
**Product number:** 8833  
**Size, approx.:** H:88 L:98 W:65 cm  
**Weight approx.:** 545 kg

### Use

The sculpture is made for both indoor and outdoor use. It withstands all the seasons of the year, and only becomes more beautiful with time. When played with and touched, the sculpture gains a smooth surface.

### Materials

Colour pigmented concrete. Since we are dealing with natural materials, colour may vary slightly from cast to cast.

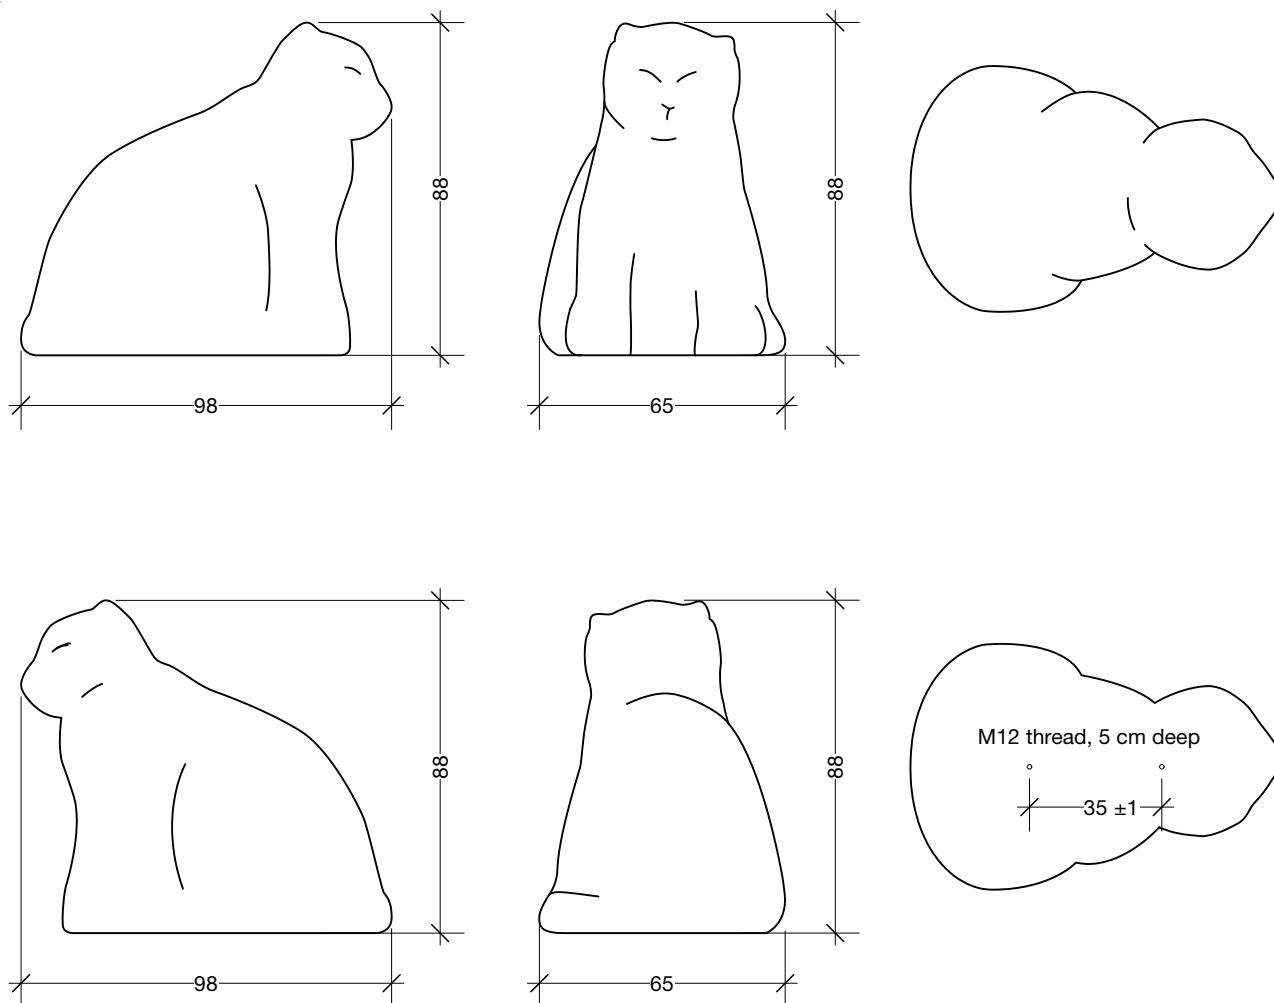

### Colors

The play sculpture is available in our 9 standard colours, defined according to the RAL scale. Please note, all colors are indicative and colour tones may vary from cast to cast. It is therefore recommended to order together if there are several of the same color for a project. The colour of the play sculpture fades slightly over the first few months after they leave production.

Read more about colours here: [www.lissyboesendesign.com/en/colourcodes](http://www.lissyboesendesign.com/en/colourcodes)

The 9 standard colours are as follows (please refer to a RAL sample for exact color):

### Online

The product can be viewed online, link [www.lissyboesendesign.com/en/sitting-cat](http://www.lissyboesendesign.com/en/sitting-cat)

### Installation

The play sculpture is made for both indoor and outdoor installation. Make sure the surface can bear the weight of the sculpture and people playing on it. Below the sculpture are two M12 threads, about 5 cm deep for additional mounting.

### Anti-graffiti

All play sculptures are coated with an anti-graffiti treatment for easier maintenance.

### Safety

Each country and location can have different safety standards. Always check and follow local standards before final installation.

### Delivery

Ex factory 4 to 6 (working) weeks. Securely packaged and delivered on europallet.

### Disclaimer

Dimensions are not to be scaled of above drawing. All measurements in centimeter. Deviations can occur in dimension, specifications, and colours. Lissy Boesen Design ApS holds the right to make changes without prior notice. This drawing and all designs herein are sole property of Lissy Boesen Design ApS, Denmark, but can be used for product presentation and implementation in project planning on the above conditions. ### Online

The product can be viewed online, link [www.lissyboesendesign.com/en/snail-small](http://www.lissyboesendesign.com/en/snail-small)

### Installation

The play sculpture is made for both indoor and outdoor installation. Make sure the surface can bear the weight of the sculpture and people playing on it. Below the sculpture are two M12 threads, about 5 cm deep for additional mounting.

### Anti-graffiti

All play sculptures are coated with an anti-graffiti treatment for easier maintenance.

### Safety

Each country and location can have different safety standards. Always check and follow local standards before final installation.

### Delivery

Ex factory 4 to 6 (working) weeks. Securely packaged and delivered on europallet.

### Disclaimer

Dimensions are not to be scaled of above drawing. All measurements in centimeter. Deviations can occur in dimension, specifications, and colours. Lissy Boesen Design ApS holds the right to make changes without prior notice.  RAL 7015

## Dog

Design: Lissy Boesen  
 Product number: 8939  
 Size, approx.: H:68 L:126 W:43 cm  
 Weight approx.: 409 kg

### Use

The sculpture is made for both indoor and outdoor use. It withstand all the seasons of the year, and only become more beautiful with time. When played with and touched, the sculpture gains a smooth surface.

### Materials

Colour pigmented concrete. Since we are dealing with natural materials, colour may vary slightly from cast to cast.

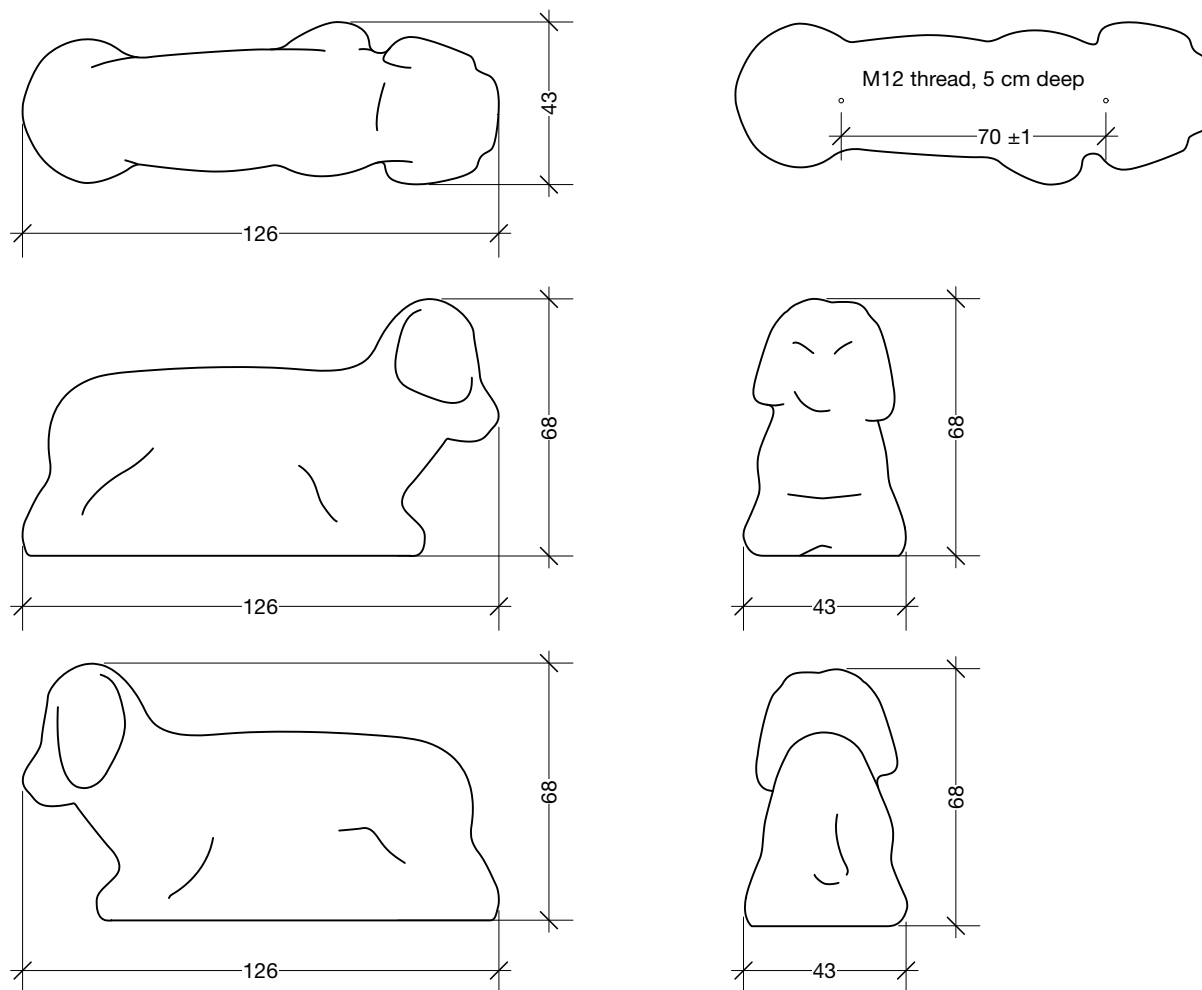

### Colors

The play sculpture is available in our 9 standard colours, defined according to the RAL scale. Please note, all colors are indicative and colour tones may vary from cast to cast. It is therefore recommended to order together if there are several of the same color for a project. The colour of the play sculpture fades slightly over the first few months after they leave production.
