

 RAL 2008

Hen

Design: Lissy Boesen
Product number: 8937
Size, approx.: H:60 L:75 W:57 cm
Weight approx.: 290 kg

Use

The sculpture is made for both indoor and outdoor use. It withstand all the seasons of the year, and only become more beautiful with time. When played with and touched, the sculpture gains a smooth surface.

Materials

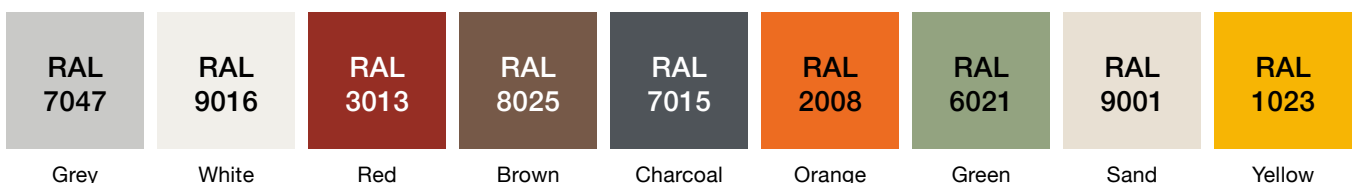

Colour pigmented concrete. Since we are dealing with natural materials, colour may vary slightly from cast to cast.

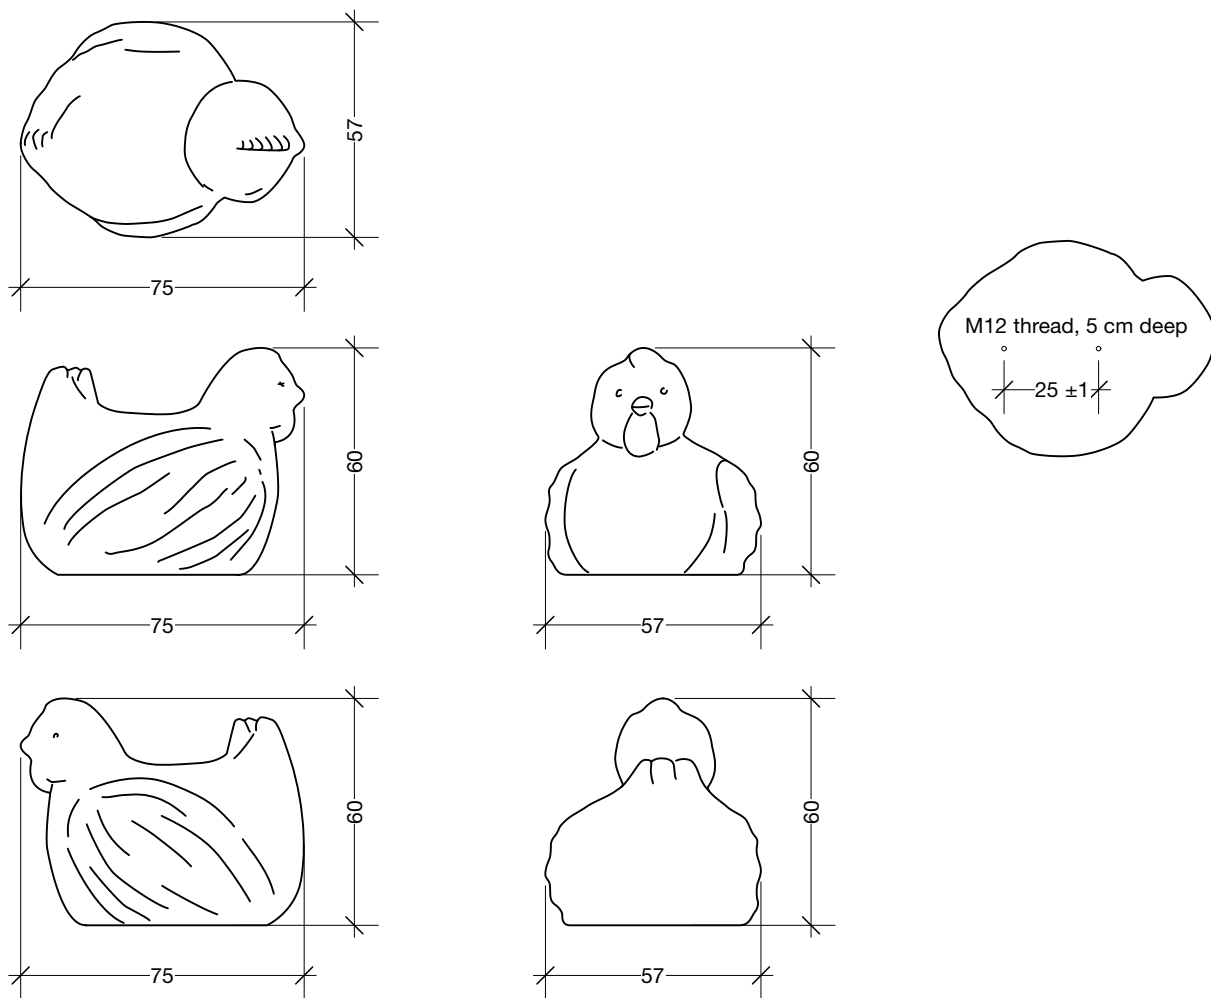

Colors

The play sculpture is available in our 9 standard colours, defined according to the RAL scale. Please note, all colors are indicative and colour tones may vary from cast to cast. It is therefore recommended to order together if there are several of the same color for a project. The colour of the play sculpture fades slightly over the first few months after they leave production.

Read more about colours here: www.lissyboesendesign.com/en/colourcodes

The 9 standard colours are as follows (please refer to a RAL sample for exact color):

Online

The product can be viewed online, link www.lissyboesendesign.com/en/hen

Installation

The play sculpture is made for both indoor and outdoor installation. Make sure the surface can bear the weight of the sculpture and people playing on it. Below the sculpture are two M12 threads, about 5 cm deep for additional mounting.

Anti-graffiti

All play sculptures are coated with an anti-graffiti treatment for easier maintenance.

Safety

Each country and location can have different safety standards. Always check and follow local standards before final installation.

Delivery

Ex factory 4 to 6 (working) weeks. Securely packaged and delivered on europallet.
